EDMONTON, ALBERTA, TUESDAY, AUGUST 18, 1953

Garden Club Tours Are Filmed

CROSSFIELD—The 4-H Garden Club tour was held on Monday, July 27. Mr. Norman Bell, Field man for Alberta Wheat Pool, Miss Lillian Coxoff, our Home Economist judged the gardens. Mr. Bert Bannister kindly joined the tour and took moving pictures of the girls and their gardens. Mr. Bannister hopes to have these pictures in readiness for Achievement Day.

Several of the mothers of the 4-H members kindly joined the tour, which started at the home of Mrs. Frank Laut, Leader. Visitations were made to gardens of Patricia Heltzer, Beverley Stillings, Ellen and Joyce McDonald and to the United Church which is their Community Project. Every 4-H Garden Club has to have a definite project and our Garden Club chose the United Church as it is used by the Community at large for Sunday School, Church, Showers, Clinic and many kinds of meetings.

From the church, where the rain caught up with them, the tour moved to Marion and Evelyn Banta's, to Lois Ried's and down the highway to Goldie Copley's and to the Junior Leader, Joanne Copley's. Here a very delectable chicken dinner was served and enjoyed. The tour then proceeded to the homes of Lillian Aldred and of the co-leader Mrs. William Aldred and her daughter Margaret, and thence to Beverley Tronnes' and Joyce Jensen's, where a surprise was in store for the members as Joyce had

Garden Club Meets In Church Parlor

CROSSFIELD—The 4-H Happy Gang Garden Club Girls attended a meeting at the United Church parlors.

We would like to thank Mr. Bannister who showed some very interesting films on Marjory Banta and Joanne Copley boarding train to Toronto, on the East Community Hall being moved into town, and also on a picnic held at Russel Bill's farm.

After the films a very delicious lunch was served by Laverne Becker and Joanne Copley.

planted her vegetables in the form of a 4-H which was beautifully worked out. From here the tour travelled to Adrienne and Darlene Van Maaron's, who were unfortunate in having had hall on their nice gardens. The judges were very pleased with the gardens as the girls had put forth time and effort. One first year girl was highly commended. The home of Mrs. Ellis Banta was used for a delicious lunch.

A sincere thanks is extended to all parents for their co-operation with lunch, to Mrs. Sylvia Hansen for her help, to Copleys for their kind hospitality, to the mothers who drove cars and kindly accompanied the tour, to Mr. Bannister for films and to Mrs. Banta for lunch and the use of her home where the judges talked with the members. Achievement Day, will be the second Friday in September in the evening.

Crossfield News Briefs

Mr. Gordon Fox is a patient in the General Hospital, where a diabetic condition is being given attention.

The sewer is being laid in spite of rock, which has caused considerable delay and necessitated a lot of blasting which has been hard on the nerves and in some instances has caused damage to store windows and fronts.

Mrs. Walter Lilley returned to her home on Sunday, August 16 after spending almost a month with her parents in Medicine Hat. Mr. and Mrs. Bottomley, her parents, and her two brothers accompanied her and will spend a short holiday at the Lilley farm.

Mrs. Win Landymore and daughter Irene, together with Mrs. Earl Adams, sister, are visiting at the home of Mr. and Mrs. Tennant in Vancouver, parents of the above mentioned.

Haying seems to be the order of the day and there is a wonderful crop, so thick that it is hard to get it dry.

Corporal and Mrs. Mansell were town visitors on Wednesday evening when Arnold attended Masonic Lodge.

Mrs. Margaret Borbridge has had a visit from several of her sisters and will accompany them to Lulu Island, B.C. when the whole family will participate in the celebrations of Mr. Lyon's 80th birthday.

Mr. and Mrs. Alton High have returned from a trip to the States and Vancouver. In this city they ran into Const. Lawrence Lilley, who was delighted to see someone from his old home town.

Mr. and Mrs. Gordon Fox are the proud parents of a little 5 lb. daughter, Judy Marie, born in the General Hospital on August 8. Mother and infant both are doing nicely.

Mr. and Mrs. Avriland Billy, parents of Mrs. Gordon Fox, arrived in time to have a visit with their new grand-daughter. They were guests at the home of Mr. and Mrs. Chas. Fox. Young Billy had broken his wrist on the way up from the States when he decided to have a little fishing expedition of his own.

Rosalyn Bills has been at Sylvan Lake and Buster, her brother, is enjoying a visit to the Eastern States.

Mr. and Mrs. Knudsen, parents of Mr. and Mrs. Bob Hansen, were visitors at the home of Mr. and Mrs. F. Laut recently.

On Thursday, August 6, Mr. McCalla, from the extension Dept. of Agriculture, addressed a meeting on the care and pruning of shrubs. He demonstrated at the home of Mrs. F. Laut, where a delicious lunch was served on the lawn.

Sees Trouble Ahead

PEACE RIVER—The possibility that Canada is about to change from a wartime to peacetime economy is apt to lead to economic difficulties, Premier E. C. Manning said here in a speech.

VETERAN SOCIAL CREDITER WINS AGAIN AGAINST DR. DAY, LIBERAL

DRUMHELLER —(BUP)—Social Credit MP Victor Quelch was re-elected Monday in the central Alberta riding of Acadia, but only after strong competition from Liberal candidate Dr. A. M. Day.

Dr. Day, who lost by only a handful of votes in 1945, took the lead several times throughout the evening.

Counting in the riding ended for the night at midnight, and with 276 out of 319 polls heard from, showed these results:

Quelch (SC)	7416
Day (Lib.)	6966
McRae (CCF)	1694

Born in British Guiana in 1891, but a resident of Canada since 1909, Mr. Quelch was first elected to the House of Commons in 1935. He has been re-elected at each election since then.

Alberta Orders Polio Ban

EDMONTON—To curb the mid-summer wave of polio throughout the province, the provincial Department of Health will bar all children under the age of 16 from theatres and swimming pools. The ban went into effect on Friday morning, Aug. 14.

Alberta cities, towns and municipalities were informed of the ban Thursday by Dr. D. A. Somerville, deputy minister of health for the province, and letters containing additional details of the ban were mailed to health officers throughout the province.

The reason for the ban this year is because the toll of polio cases is more uniform throughout the province than last year.

PARAKEET KNOWS NAME

FRESNO, Cal.—A lost parakeet perched on the shoulder of George C. Stockle, who was working on his lawn. "I'm Mel's Corkie Boy", said the bird. Stockle checked a newspaper and learned that Melvin Clark had lost Corkie Boy, who was returned home.

BUP News Of Election Results

This issue contains news of the Federal General Election results, in several different stories from the wires of British United Press and BUP Edmonton Bureau. Read in this issue complete account of the election as it applies to all of Canada, Alberta returns and local constituency results.

Old Timer Honored

CROSSFIELD—On August 4th, friends gathered at the home of Homer Gano in honor of his 72nd birthday. Mr. and Mrs. Gano were out to supper and on their return were greatly surprised to find 12 cars in their yard and the guests assembled on the lawn and in the house.

Mr. Gano received many cards and gifts. The guests, as well as Mr. Gano, enjoyed the opening of the gifts. One gift was a tiny car. This was immediately wound up and set in action. Removing many layers of paper from another parcel revealed a charming wee doll, really the belle of the party.

Those assembled spent the evening in chatting together. Later a tasty lunch was served. The birthday cake, an angel food fully 18" in diameter, was a thing of beauty as it was brought in, with 72 lighted candles on it. Everyone joined in singing "Happy Birthday" as Mr. Gano blew out the candles.

Besides the immediate family those honoring Mr. Gano were Mrs. Barbara Larson and Fritz; Mr. and Mrs. E. Beddoes; Mr. and Mrs. Jim Reeves and Bob; Mrs. Banta Sr.; Mrs. Ellis Banta and Mrs. Jack Reeves; Mr. and Mrs. Billy Kiel; Mrs. Ned MacArthur; Mr. McLaren; Mr. Jess Havens; Mr. and Mrs. Henry Hoffman; Mr. and Mrs. F. Stone and Robert. All reported a very enjoyable evening.

WARNING!

Parents are hereby warned to keep their children away from the sewer works, especially during blasting operations. Considerable pipe has been broken by children playing on the piles and the Council intends to assess the parents for any further damage done.

By Order,
THE VILLAGE COUNCIL,
Per H. MAY, Secretary.

NOTICE TO READERS

Due to difficulties involving mechanical help, and higher publishing costs it has been decided to discontinue publication of this paper. Subscribers who have paid their subscription in advance will receive another weekly paper published by Community Publications.

We regret the fact that changing conditions are forcing many papers out of business. Any local paper requires much higher advertising and circulation revenue to be able to continue in business than this paper has enjoyed since we took over publication.

Our thanks to our Local Editor and others who have sent us news, advertising and subscriptions from time to time.

Coast-to-Coast Trans-Canada Highway Will Soon Be Reality

OTTAWA—The motorist's dream of a first class, black-topped road from coast to coast is approaching fulfilment as a result of the government's Trans-Canada highway program.

Piloted by Resources Minister Robert Winters, the plan calls for completion of a cross-country route by the end of 1954, and there is reason to believe the target date will be reached on schedule in most parts of the nation.

More than \$100,000,000 has been

committed to construction of the road to date. Half of this money has been advanced by the federal government and the remainder by the participating provinces.

When completed, the road will meet the best of modern highway standards. With 24 feet of pavement and 10-foot safety shoulders on either side, it will be considerably wider than most roads built in Canada before the war. Though some variations in this standard—22-foot pavement along certain sections—are being permitted, engineers are confident it will be as good a highway as the most critical motorist could demand.

Mr. Winters, himself an engineer, believes most participating provinces will complete their share of the work by the target date, and that traffic will be flowing over long portions of the road well before the end of 1956.

"There is no reason to believe," he told Parliament recently, "that there is any province that could not finish in the time allowed. . . . They still have four more construction years to go and good progress is being made."

This year, the federal and provincial governments expect to spend more than \$54,000,000 on the route, the largest amount appropriated in any single construction year since the seven-year agreements were signed in December, 1949.

How fast is work progressing? Measured in miles, the construction record to date sounds less impressive than it really is. Most provinces, with encouragement from federal engineers, have been tackling the toughest sections of the road first. Ontario, for example, has spent \$38,500,000 to date, and most of this has been on heavy work through the country north of Lake Superior. British Columbia is working on one of the most spectacular and costly sections through Hell's Gate Canyon.

Engineers say it is virtually impossible to measure the mileage completed to date. Few sections have been finished in the final sense, and even those which are paved require further work on bridges, shoulders, etc. A considerable part of the money spent so far has gone toward the costly job of clearing a right-of-way through rock, muskeg and rolling terrain.

It's hoped here that removal of steel controls and a general easing of defence pressure will speed construction work in the next few years. The heavy demand for labor, materials and engineering personnel in other fields has cut heavily into the program since 1949, but engineers think the fact the highway is as far ahead as it is in the race of these other claims is evidence of the importance attached to it by participating provinces. They see this year's record outlay as a further indication that the provinces are determined to complete the road.

When the Trans-Canada highway is completed, it will be one of the great scenic routes of North America, rivalling any other road on earth for mileage of constant

\$1 for— EMBARRASSING MOMENTS

The Editor will pay \$1.00 for every item published on "The Most Embarrassing Moment of My Life". To qualify items must be true personal incidents. Address "Embarrassing Moments," P.O. Box 4430, South Edmonton.

One day when I was at home with my little brother, I was feeling out of sorts, and coming into our place was a neighbor's boy. As I was feeling pretty low I said, "What in the heck does he want." When he came in my little brother said, "My big brother don't like you because he said he didn't want you to come here." Was I ever embarrassed.

COWBOY JOE.

Meanook, Alta.

Having decided to pass a week-end in Edmonton, I hurriedly packed my suitcase and left. Just as I was getting on the bus, "snap" goes the suitcase and everything from curlers to certain personal possessions which I'd rather not mention, went sprawling all over the pavement. Imagine my embarrassment when I hastily gathered up the mess while a whole line-up waited for me to finish my task so that they too could get on the bus.

WEDDING PHOTOGRAPHS

THE LIGHTER SIDE

"How long you in jail fo', Mose?"

"Two weeks."

"What am de chaj?"

"No charge, everything am free."

"Ah means what has you did?"

"Done shot my wife."

"You killed yo' wife and only in jail fo' two weeks?"

"Dat's all—den I gits hung."

A farmer, asked what animals he was sending to market, replied, "They're all pigs except four, all cows except six, and all horses except eight."

How many of each was he sending to market?

At a party celebration in Lenin-grad, a guest discovered a piece of rubber tire in his stew. About to protest, he noticed the eye of a secret police official fixed upon him, and managed a cheerful, "Well, everything is going according to our most optimistic calculations. Here we've been in power only thirty-five years, and already the automobile is replacing the horse!"

"Miss P." reproved her landlady, "I definitely thought I saw you sneaking a young gentleman up to your room with you last night."

"You're not the only one, I thought so too."

A seedy-looking gent stumbled into a parlor-car seat directly opposite a very correct Toronto lady, who held on her lap an equally haughty, bespectacled little girl. The lady quite obviously found the proximity of the seedy gent objectionable. In fact, she took the extraordinary step of leaning across the aisle and whispering, "I think you should know that my

little girl is just recuperating from a bad case of smallpox, which is still probably contagious."

"Don't let that worry you for a moment," said the seedy one, unperturbed. "I'm going to cut my throat in the first tunnel anyhow."

The man who bought a second-hand flier took it back. "What's the matter with it?" asked the seller.

"Every gosh dern part of the gosh blamed thing makes a noise except the horn," said the irate owner.

At the finish line of a big bicycle race from Prague to Warsaw, a Polish lad watched eagerly until the last contestant pedalled by, then burst into tears. "Why weren't there any Russians in the race?" he sobbed. "I was hoping to get my bike back."

Hoarsely the impassioned swain begged, "Whisper those three little words that will make me walk on air. So the debutante sweetly told him, "Go hang yourself."

Q (Give and Take)—What is known as a pampas?

A—A spoiled child.

If you want a thing well done, cook it yourself.

News flashes from the circus: A trapeze artist married the India-rubber man, and is now twisting him around her little finger.

The lion tamer is angry at his lady friend because, he says, she kisses him and gives him a brush-off at the same time. Seems she's the bearded lady.

The assistant manager has tried tonics of eleven different colors to cure his dandruff. He reports, "I finally got rid of the dandruff, all right, but now my head is full of confetti."

\$1 for Favorite RECIPE

PINEAPPLE CREAM CAKE

First Part

2½ cups Graham Wafers (about 30)

¼ cup melted butter

Keep out about ¼ cup of crumbs. Mix the rest together and bake 8 to 10 minutes in 325 degree oven.

Second Part

½ cup butter

1½ cups icing sugar

2 eggs

Cream—butter, add sugar and beat till fluffy. Add beaten eggs and spread on top of other mixture.

Whip ½ pint of cream, add vanilla and one tin of crushed pineapple (strained). Sugar may be added to sweeten cream but not necessary. Put on top of other mixture and sprinkle remaining crumbs on top. Leave one night in frig or cool place. Serves 10.

\$1.00 goes out to Mrs. P. Murray of Calgary for this excellent recipe.

Anti-Polio Measures

Youngsters under 16 years of age as well as the owners and managers of theatres in Alberta won't like it—but the ban against children attending picture shows during the polio season is for the general as well as the individual good.

The trouble with poliomyelitis is that nobody knows exactly how one catches the disease nor what measures should be taken to avoid getting it.

It does seem, however, that the polio germ is communicable and more likely to spread into an epidemic where large numbers of people congregate in enclosed quarters. It will be a good experiment to see if the measures being taken now by the Alberta Health Minister will avoid a major epidemic in this province.

Value Of Farm Silos

Silos and silage are receiving an increasing amount of attention on Alberta farms where livestock is a major enterprise. The success of the units in use for the last two or more years has stimulated interest in this method of handling forage. For this reason, the forage harvester is making its appearance on more and more farms, although where moderate tonnages are being handled, the cutter box or ensilage cutter is still being used. In many cases the ensilage is being placed and packed in the silo in the long state, after just a short period of wilting. The tractor mounted loader, the old style rack loader, and a binder and bundler are each being utilized by different farmers to handle the crop.

Silos vary in construction. The trench type is the most common, but there are some conventional upright silos, several snow fence and paper silos, and some stack silos being used. The trench silo is the most versatile and can utilize power equipment for filling with either cut or long silage. This in turn can be packed with a tractor. This latter factor is important, as adequate packing is very necessary if a good grade of silage is to be procured. Tractor packing of stack silos is employed in some areas, but it is a dangerous operation, as packing of the sides of the stack is liable to tip the tractor sideways.

Information on silos and silage may be obtained from the local District Agriculturist, or by writing to the Extension Engineer, Alberta Department of Agriculture, Edmonton.

On Cleaning The Teeth

A group of Washington dentists were recently told by the Executive Secretary of the Southern California Dental Association that apples are an efficient cleaner of teeth. In fact, the official claimed that apples do a superior job of cleaning compared to conventional toothbrushes.

It seems to be agreed that apples are a most beneficial fruit for the body, and since they ship well, the recent advice of the dental official might increase their consumption. However, at this time of year, we like to believe that peaches are equally beneficial. While we know that is not true, we manage to convince ourselves it is every year for a few weeks in the late summer.

The Bible Today

And the fruit of righteousness is sown in peace of them that make peace.—James, III; 18.

Men Of Valor

To head out into the ocean not knowing where you were going, nobody having come back to tell you what was there, was an act of supreme daring. Familiarity with the story of Christopher Columbus should not make us insensitive to his audacity. In that day the air was supposed to be filled with evil spirits. Think of plunging forward through the blackness of night and the turbulence of storms toward an unknown destination!

Andrew Jackson was the most astonishing man ever to live in the White House. Unlike his aristocratic predecessors, he was a man of the people, rough and sometimes uncouth, profane and violent of temper. But he believed in democracy and had the courage to do what he thought was right. He was re-elected and at the end of eight years was more popular than before. His contribution to American democracy is vast indeed.

U.S. Restrictions On Trade

The United States Government has put up trade barriers calculated to exclude \$2,000,000.00 worth of Canadian farm products from the U.S. market.

As a people, we pride ourselves on our friendly relations with our big neighbor to the South. We would never be guilty of putting an American newspaper reporter in jail for writing the truth, and then demanding better trading conditions as a ransom for his release.

But that is what one little European country—Czechoslovakia—has done. They sentenced a United Press foreign correspondent, William Oatis, to a ten-year prison term and then demanded removal of trade restrictions for his release.

So while Bandit Czechoslovakia gets a better trade deal with the U.S., "Good Neighbor" Canada gets a worse trade deal. As our cartoon illustrates, this is a new concept of "Crime and Punishment" in International affairs.

Cheap Wheat For U.K.

Lord Woolton, who was minister of food in the British government during the second world war, favors the return of the futures grain market because he believes it will bring cheap bread to the British. He made this clear in an address delivered when he laid the foundation stone of the new one billion pound corn exchange.

Said Lord Woolton: "The history of the Liverpool corn exchange . . . is a history that has enabled this country through times of stress as well as of prosperity to have a plentiful supply of cheap bread. . . This country needs to import between four and five million tons of grain every year. Those of us who are responsible for the government of this country have come to the conclusion that an advantage lies in hastening the time when purchase of commodities can be made through channels of private trade in encouraging the resumption of the (futures) system which served us so well before the outbreak of war."

This statement by Lord Woolton confirms the opinion of the great majority of grain producers in the prairie provinces of Canada that a speculative market is of more advantage to the consumer from a price standpoint than it is to the producers.

Need Of Thistle Control

Every fall toward cutting time weed inspectors are forced to insist that thistle patches be destroyed. The method of destruction is often cutting and burning or at least cutting the crop while it is still immature. Such a practice is very annoying to the farmer and means a lot of futile work on the part of the weed inspector or field supervisor.

The patches of thistles can be controlled now with an application of 2,4-D. The resultant damage to the crop even if it is in head will probably be less than the total yield reduction caused by the thistles. In any case the crop can be allowed to head and mature and the thistles will be given a definite setback whereas the cutting and burning does nothing towards eradicating the thistles—it merely prevents them from setting seed. Check your fields now and hand spray those small patches of thistles, advises G. R. Sterling, Supervisor, Soil Conservation and Weed Control, Alberta Department of Agriculture. It will save you time and money in the end!

Note and Comment

Deliveries of durum wheat and flaxseed will not be subject to deliver quota control in the 1953-54 crop year.

Grain thrips are causing some damage to crops in southern Alberta. Barley is particularly susceptible to this minute pest.

The Canadian gold mines have been bonused by the federal government to the extent of \$40 million in the past few years, according to a statement made by M. J. Coldwell.

The United States Department of Agriculture announces the wheat support price at national average of \$2.21 a bushel to farmers for the 1953 crop. Last year's average was \$2.20.

WHAT OTHERS SAY

ACCENT FROM PARIS

Victoria Times

To most people in this part of Canada, Prime Minister St. Laurent's quips on the Quebec-vs.-Paris accent are matters of academic interest only.

Discussing a language course given at Trois Pistoles, Que., Mr. St. Laurent told a Chicoutimi audience of students: "go there not to learn Parisian French, but real French, the kind of French you and I speak."

That, to scores of high school

students in this section of the nation sounds like heresy. Yet how heretical is it? Is the Parisian accent to French what the London accent is to English? And if so, what part of London, or what part of Paris?

MYSTERY

Victoria Times

One of the minor mysteries of the day surrounds the selection of the picture of Canada's current four-cent stamp. The image is reportedly that of the Queen.

Voice Of The People

PHILOSOPHER

The people are destroyed for lack of knowledge and truth. I beg for better education of the Bible. Please ponder these statements and everybody read the passages referred to, to show the truth.

The Church has Failed: Rev. 18, 4-8; 3, 14-16; 19, 21.

The Bible Stands True: Luke 1, 6; Acts 2, 38; Rev. 3, 10-11.

Restoration is Coming! Zachariah 10, 1; Ephesians 6, 13, 2 Corinthians 1, 22.

For more information write to me at 333 Columbia Street, Vancouver.

Yac Minsacs.

PREMIER AND GAS PRICES

I was glad to note a protest in a recent issue against the rise in the price of gasoline.

One farmer was heard to remark: "Every time they find a new oil well, the price of gas goes up and the taxes go up! If they don't stop this oil exploration soon, I'll go broke!"

That such a remark is possible is a direct result of provincial government policy. In the November 1952 issue of the Organized Farmer, Premier Manning was quoted on rejecting FUA demand for more "just prices" for oil, giving the reason that the oil industry is so "highly competitive" as to require no regulation.

How would the Premier explain the fact that in his "highly competitive" industry, the price of gasoline went up by exactly the same amount at the same time all over Alberta? This looks like air-tight monopoly to me!

Mr. Manning should take notice of the fact that the U.S. government is threatening to prosecute what it calls an international oil cartel. In supporting the present exorbitant price situation with the "highly competitive" argument, Manning is either blind to reality, or is giving farmers and motorists the old brush-off.

LETTER TO LOUISA

Hard Working Sister Resents Maternal Consideration Given Lazy Brother

Dear Louisa:
I live with my mother and my only brother. Mother works and so do I but brother doesn't seem to be able to hold a job very long. He is very pleasant but it gets on my nerves to have him sleeping late and sitting around the house all day while mother and I pay the bills.

Personally, I think he is just lazy and not interested in working when he can loaf but mother sympathizes with him and thinks I should help him out when he has the hard luck to be out of work. Which means that the money I have saved for a trip or some special thing very often goes into shirts and shoes for him.

I am getting tired of it and am thinking of getting a job in some other town as I am a very good stenographer. What do you think of this idea?

DISGUSTED.

Answer:
Why mothers think that their daughters should work to support big lazy boys I can never understand but some of them seem to be blind to their son's faults and expect their daughters to take their hard earned money and keep baby boy who is six feet tall and enjoys his morning nap, not only in food and clothes but in cigarettes. Nothing can convince these dotting mothers that these boys are lazy and not suffering from bosses who misunderstand them.

My advice to you, Disgusted, is to tell him that he can either work or move on and if that doesn't

have any effect, move somewhere else as you are considering doing. There is no earthly reason for a young girl like you to support a brother who is healthy and has a good mind.

LOUISA

My boy friend and I have been going steady together. When ever he sees a cute girl he leaves me alone. Later he will come back and try to love me up. What should I do? Should I keep on going with him or quit him?
"I WONDER"

Answer:

Why don't you cut loose from the guy and go and dig up half a dozen boy friends yourself. Remember, there are more fish in the sea than ever were caught and if I were you I'd "wash that man right out of my hair." He must think he's pretty good to be able to pick you up and drop you again at will.

LOUISA

STRIKING TROPHY to be awarded annually to the angler who hooks the largest tuna fish off the coast of Nova Scotia. The trophy is presented by the LAKE SIDE INN, a C.P.R. summer resort centre at Yarmouth, Nova Scotia.

FARMERS REGISTER PROTEST AGAINST OIL COMPANIES

EDMONTON—Fourteen farmers on the edge of Edmonton's eastern outskirts are petitioning the Alberta government to protest against the laws which permit oil companies to build pipe lines through their land while paying what farmers believe to be inadequate compensation for the land.

Speaking for the group recently, one of their number said a company wanting a right-of-way for a pipe line is granted a permit by the Alberta Highways Minister. If the land-owner registers a protest, a hearing is held before the Board of Public Utilities Commissioners.

Farmers object that their rights are being ignored both by the minister and the board, the spokesman said. The Utility Commissioners "automatically grant" right-of-way permits whenever hearings are held, he said.

The petition listed seven points:

1. As legal title-holders . . . we believe our rights are ignored by the Minister of Highways and the Board of Utility Commissioners. The route is decided on and the company granted the right-of-way before there is even a hearing. The so-called hearing is a mere formality. The chairman of the hearing has said that no matter what evidence is presented, the lines will go through as planned.
2. There is no consideration given the title-holder respecting the dates set for such hearings.
3. Right-of-way should be granted only when there is an absolute necessity for it. Property owners should be notified and there should be a waiting period of six months to a year before a person's legal rights are interfered with.
4. The compensation being paid is entirely inadequate.
5. There is no appeal to a court of law; the decision of the board is final.
6. There is not sufficient supervision by the government to the manner in which lines are put in. Surveyors trample through grain and put up stakes even before the right-of-way is granted. No permission . . . is requested from the farmer.
7. No assurance is given us that there will be no additional right-of-ways granted in this area.

Struck By Pipe, Leg Amputated

EDMONTON (BUP)—A 51-year-old workman had his leg amputated Wednesday after being struck by a "bull plug" which flew off a 16-inch oil pipeline.

Hans Mieczorek, Edmonton, was employed by the Canada Pipeline Construction Co., near Ellerslie. The accident occurred while a crew was conducting a high compression air test of the line.

Mieczorek suffered a shattered thigh bone, which made the amputation necessary.

U. of A. Again Offering Night Credit Courses

The University of Alberta, subject to adequate enrolment, is again offering a program of credit courses in the evening during the 1953-54 academic session.

Held over a period of three years in both Calgary and Edmonton, the courses will enable students to complete the first-year course requirements of either the Bachelor of Arts or Bachelor of Commerce degrees and the first year of the pre-law course.

While it is not possible to guarantee that students taking these courses will be able to complete the requirements for a degree by means of evening classes, it may be possible in the future, depending on the demand and the facilities available, to offer more advanced work.

OFFERED IN CALGARY

The following courses are offered in Calgary: French 2, education 326, accounting 1, psychology 40 and history 10.

The Edmonton courses will be: accounting 1, mathematics 42-5, history 10, commercial law 41, philosophy 1, education 338 and education 576.

Classes will commence on the week beginning Oct. 5 when further information on other courses offered during the late afternoons and on Saturday morning will be available.

In Calgary the courses will be held in the Arts and Science building, while in Edmonton, classes will be held on the campus in the Arts and Science building and the Education building.

Two scholarships offered by the Loyal Order of the Moose and valued at \$100 will be available during the 1953 session.

The total fee for one course is \$48 and \$88 for two courses. Those interested in taking course lectures, but not wanting to write examinations or receive credit, may apply for registration as auditors at \$10 per course.

Further information and the brochure covering the evening division programs are available from the department of extension, University of Alberta and the Calgary branch of the University.

An American tourist in England asked the gardener at Kensington Gardens, "How do you ever get lawns as perfect as that?"

The reply was, "Well, madam, the first thing you have to do is begin about 600 years ago."

EDMONTON MAN WINS CFRN "GET-OUT-AND-VOTE" CONTEST

Mr. David Wright of 7519 - 82 Avenue, Edmonton, wrote the winning letter in CFRN's contest to sponsor interest in voting on Election day. The theme of the contest was a letter in 100 words or less beginning with the statement: "I want my child to be Prime Minister of Canada because." Mr. Wright wrote on behalf of his 7-year-old son, David J. Wright, Jr., who as winner, has a bank account to the amount of \$50 opened in his name in the Bonnie Doon branch of the Royal Bank of Canada.

The text of Mr. Wright's letter was as follows:

"I would like my child to become Prime Minister of Canada because of what the position implies, not in fortune, not in power, not just in prestige, but in the knowledge that a dedicated life is a happy one. I want him to know the happiness that is the fruit of a worthwhile objective, well accomplished."

This is the common lot of parents, to wish their children a finer life than they themselves have known, and it was the recognition that the Canadian way of life provided opportunities for the fulfillment of this wish, that brought to Canada a greater part of her population. What finer aspiration then could a father have, than his son should be proudly dedicated to the continuance of these opportunities, and happily recognized as an able guardian of this way of life?

"His fellow Canadians must recognize this dedication and ability when they look to him for democratic leadership as their Prime Minister."

Mr. Wright is a former member of the Edmonton Public School teaching staff. His son David Jr. attends King Edward School. The presentation to Mr. Wright and his son David of the account was made by Mr. G. R. A. Rice, president and manager of the Sunwapia Broadcasting Company in a special broadcast released on Tuesday night. The Prime Minister Contest was only one portion of CFRN's extensive campaign to encourage northern Alberta to VOTE in the federal election.

Quick Canadian Quiz No. 131

1. Considered as part of the Great Lakes Waterway, where is the source of the St. Lawrence River?
2. In 1938 Canadians sold abroad \$838 million worth of goods. What was the 1952 total?
3. In the twelve months up to March 1, 1953, was Canada's population growth 376,000, 712,000 or 912,000?
4. In 1901 there were 271,201 Canadians over 65 years of age. How many were in this age group in 1951?
5. From what sources does the federal unemployment insurance fund draw its revenues?

ANSWERS: 5. Employees and employers contribute equal amounts and one fifth of their total contribution is added from federal tax revenues. 3. 376,000. 1. In the State of Minnesota. 4. There were 1,086,273 Canadians over 65 years of age. 2. 1952 exports totalled \$4,356 million.

(Material supplied by the editors of Quick Canadian Facts, the handbook of facts about Canada.)

All-Canada Gas Pipeline Expected By Minister

EDMONTON — Mines Minister Prudham said Tuesday he thinks the Liberal victory in Monday's election will pave the way for an all-Canada natural gas pipeline as soon as Alberta has gas for export.

Mr. Prudham said he believes that an all-Canada line will have "the same kind of unifying effect as trans-Canada railways." Some interests have advocated a pipeline to the East running partly through the U.S.

AFA Will Protest Gas Price Hike

EDMONTON — Another powerful voice in Alberta has been added to the clamor for a government investigation into recent gasoline price increases.

The strong Alberta Federation of Agriculture decided at a board meeting here Wednesday to protest Imperial Oil Limited's recent 1.4 cents per gallon price hike.

The AFA called the boost "a blow to farmers" due to their reduced net income resulting from "declining markets and lowering prices of agricultural products, and the ever-increasing costs of farm operation."

The Farmer's Union of Alberta and the Alberta Motor Association had earlier called on the government for an investigation into the gasoline price boost.

The rising and serious hail toll in the province also came in for consideration by the federation and it was decided to set up a committee to make a study of hail insurance. This will be taken up at the organization's annual meeting at Calgary, Dec. 15, 16, and 17.

There's Hope, Baldy!

MONTREAL (BUP)—A research team has reported that a cure for baldness may be close at hand.

Dr. Robert Liefmann Heaf of a group of researchers, said they had wound up a year's experiments by producing a drug called pituitary hair factor that makes hair grow on bald pates.

Liefmann said treatments on a group of test patients "have proven highly effective". He added, however, it was too early to report anything other than "general observations".

"Clinical results indicate that PHF can produce renewed hair growth within three to five weeks of treatment," the doctor said. The drug has been released to specialists for clinical use.

Everyone favors federal economy, on projects in the next country

My Heart Rebels

My heart rebels at mediocre things,
Dull household tasks that hold me,
When my mind takes wings,
And I would fain far places go and see,
But duty calls and I return
To life's reality.

My heart rebels at time,
How fast it speeds away,
No matter how I try and grasp
Enough for everyday,
Or treasure some small moment,
I cannot make it stay.

My heart rebels at age;
So subtly does it creep,
That when I see this first grey hair,
I sit amazed . . . and weep!

—BERYL RASMUSSEN.

Dept. of National Health and Welfare

Health Unit Notes

Immunisation of children is an important safeguard against disease and should not be neglected. At present it is possible to protect a child against Diphtheria, Whooping Cough and Tetanus, and all in the one series of injections. The first dose should be given when baby is five or six months old. Usually three injections are given at monthly intervals followed by a pause of four months and then another injection. Immunity takes some weeks to develop—hence this carefully ordered schedule.

It is felt that Smallpox can be kept at bay completely if everyone is vaccinated. It is indeed a most serious disease and we are fortunate in having a defence to combat its worst effects. The first vaccination should be done when baby is three months old—it is surprising how little upset follows when it is done at this age.

The only sure protection against measles is to have an attack—but we can now modify the severity of the illness with an injection of Gamma Globulin without in any way altering the subsequent life long immunity to the disease. It is particularly important that children under two years should be given this injection after they have been exposed and before they actually become ill—measles is quite a serious disease at this age. Unfortunately Gamma Globulin has only an effect for a very short time and therefore cannot be given as a routine matter.

Many other protective inoculations can be given but at present in this country the diseases mentioned above constitute the main problem.

The Health Unit staff are quite prepared to do vaccinations for people going overseas and to prepare the necessary international certificates.

Namoo Airman Dies In Crash

EDMONTON (BUP)—One man was killed when his car crashed into the rear of a parked truck on the outskirts of the Namoo RCAF station north of here last week.

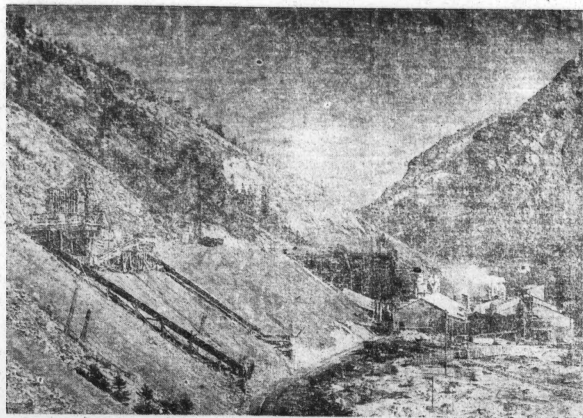

RCMP said Wednesday the victim was Cpl. Lloyd G. Dinsmore, 35, a supply technician at the Namoo base. He was a native of Vegreville.

Driver of the truck, Morris C. Bateman, of Barrhead, said he had stopped his cattle truck at a level crossing south of the airfield on highway 28 at 9:45.

Dinsmore's car was completely demolished by the impact. He was pronounced dead on arrival at hospital.

Provincial Coroner Dr. M. M. Cantor has not yet announced whether an inquest will be held.

MINING....

Buried in the mountains of Alberta is one of the world's greatest reserves of coal, and though coal-mining has suffered somewhat in competition with oil, it is still a natural resource for which we need be grateful.

AGRICULTURE....

The backbone of Alberta's economic structure is to be found on the farms of the province. Modern farming methods have boosted the output of grain from Alberta—grain-farming has kept pace with other industries.

BUILDING....

With expanding industry, comes an expanding growth of population and the need for homes is a pressing one. Of recent years, construction has become a highly important industry in Alberta.

ALBERTA'S WEALTH

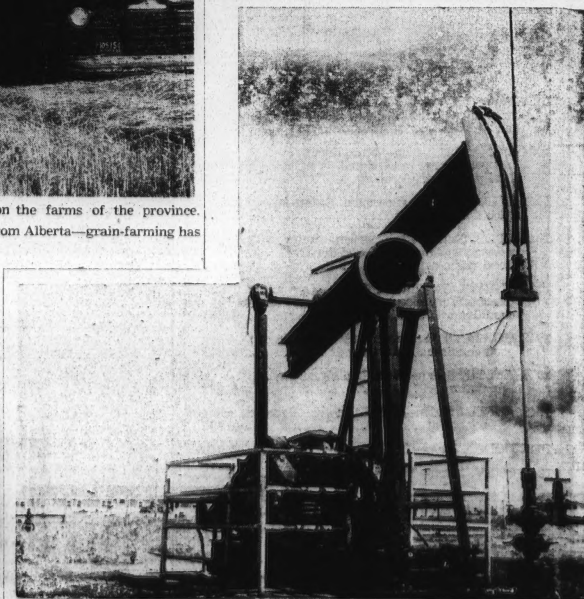

No province in the Dominion is endowed with a greater wealth of natural resources than Alberta. More and more the eyes of the industrial world are turning to this rapidly expanding province of ours.

LIVESTOCK....

One of our earliest industries was the cattle industry, and it is still one of our best. Here a pretty lass checks an animal on its way to market.

OIL....

Familiar sights in many areas of Alberta are these bobbing machines which pump thousands of barrels of oil daily—which pump millions of dollars annually into Alberta coffers.

Third Group In '53 Climb Mt. Robson

JASPER—Mighty Mount Robson, highest peak in the Canadian Rockies has been climbed for the third time this year. Word of the ascent by five U.S. climbers was brought by Mount Robson Park Forest Ranger Jack Wilson.

The latest party to conquer the 12,972 foot peak included Will Shri, Allen Steck and Bill Dunmire of Berkeley, Calif.; Dick Houston, San Francisco, and Bill Long of Richmond, Calif.

The California group followed the same route as the other two 1953 climbing expeditions. The Californians are members of the Himalayan expedition, planning next summer's attempt on 27,790 foot Mount Nakalu, fourth highest mountain in the world. They made the Mount Robson ascent to test high altitude equipment. Prior to 1953 the mountain had not been climbed since 1938.

"Miss Nudist" Needs a Dress

ST. ALBANS, England—Ivy Young, 26-year-old London typist, was crowned Miss British Nudist of 1953 at an outing of 300 men, women and children clad in their birthday suits.

Miss Young, a comely brunette, was asked by reporters what she intended to do with the £10 (\$28) prize.

"Buy a dress," she replied.

Gordon Refuses British Post

QUEBEC—Transport Minister Chevrier said that Donald Gordon, president of Canadian National railways, has turned down an offer to become chairman of the British Transport Commission.

During a press conference, Mr. Chevrier said Mr. Gordon decided Tuesday not to accept the invitation "on the grounds that his existing duties and responsibilities were such that they precluded his leaving Canada or considering any other undertaking in the foreseeable future."

Edmonton Soon To Get \$6,000,000 Building

EDMONTON (BUP)—The return of the Liberal party in Monday's election gave Edmonton the "green light" for the construction of a \$6,000,000 federal building; an 11-storey structure housing many government offices.

That is what mines and technical surveys minister George Prudham told the people of Edmonton Tuesday. Prudham, re-elected as Liberal member in Edmonton West, said the proposed structure will cover an area larger than the Macdonald Hotel.

Prudham added the Liberal government would be prepared to construct an all-Canada gas pipeline as soon as Alberta has gas for export.

Edmonton's other Liberal-elect, R. F. L. Hanna said he will push the re-location of Edmonton's airport outside the city.

Alberta Almost Ready To Cut Spring Wheat

Spring wheat cutting should be starting in southern Alberta this week, according to the latest crop report of the Alberta Wheat Pool. Harvesting of fall wheat and rye is in full swing in the southeast and cutting of rye has also started in east-central Alberta.

Taking the province as a whole, yields should be above average but not as good as last year. A late August frost is to be dreaded.

The worst damage the crop has suffered this year is from hail and about eight per cent of the 12,800,000 acres seeded to small grains has been damaged.

SMALLER ACREAGE

Despite the difficult seeding season during the wet spring, this year's wheat acreage in Alberta will be only slightly less than last year, according to an estimate of the bureau of statistics.

The wheat acreage is expected to be 6,340,000, compared to 6,404,000 in 1952; oats 2,357,000 (2,587,000); barley 3,489,000 (3,336,000); rye 460,000 (380,000); flax 148,000 (151,000); with summerfallow 6,375,000 (6,146,000).

The rains last week missed the only region in the province that really wanted moisture—the southeast corner. Elsewhere moisture supplies are now ample for the rest of the growing season.

Condition of crops continues to be worst in the Vauxhall-Brooks district where wheat is reported to be 74:100. Elsewhere the general condition stands about 90, except in the eastern zone of Peace River where wheat is still as high as 105:100, well above normal, and flax at 110.

WORLD-FAMOUS AIR AMBULANCE SERVICE COMPLETES SEVEN YEARS

REGINA, Sask. (BUP)—Saskatchewan's unique air ambulance celebrated its seventh birthday this year, and will look back on 2,000 days of emergency service which flew 5,000 patients the equivalent of 50 times around the world.

But statistics don't tell the real story behind Canada's most dramatic ambulance operation.

Whether on skis, floats or wheels, the Gessna of Beechcraft planes have undertaken missions which rival those of the old North-west police for sheer dramatic color.

Pilots of the aircraft know the prairie terrain as well as their own yards. Last year they flew an average of 38 hours a week over it. In all the years of its flying, no patient has been lost through accident.

The service fetches polio, cancer and surgery cases from isolated communities, especially in the north, flying them to principal medical centres. On two occasions ambulance planes lost their race with the stork and babies were delivered high above the ground by trained flight nurses.

Planes are kept at Regina and Saskatoon, the latter doing most of the northern flying. Many patients are ferried to the well-known Mayo clinic at Rochester, Minn., while others are taken as far afield as Chicago, Minneapolis, Montreal and Toronto.

The ambulance service has a nominal fee of \$35 per patient and \$10 per passenger, regardless of the distance covered within the province. Outside the provincial area, patients are charged 35 cents a mile and passengers seven cents.

Marilyn Munroe Nearly Drowns

JASPER—Screen star Marilyn Monroe was reported nearly drowned Thursday when she stumbled in swift waters here during a scene for the film, "River of No Return."

The blonde star had donned chest-high rubber waders during rehearsals to protect her costume. She slipped on a rock, the waders filling with water and she was unable to rise.

Actor Robert Mitchum and a dozen crew men leaped in and pulled her to shore. Examination disclosed a seriously-sprained left ankle which may force her out of the film for several days.

Ford Expands Scope

DETROIT—Henry Ford II named Tomas A. Firrell vice-president and general manager of the Ford Motor Company tractor division and announced plans to market a complete line of farm machinery.

News Oddities

Draws Own Prize

Clinton, Va. — At a drawing for a prize of \$120 offered by the local post of the VFW, the master of ceremonies called a youth from the audience to draw out the lucky name. The boy reached into a large box containing 3,500 names, pulled out a slip of paper and handed it to the MC. The winner was Kenneth Fleming, of Clinton, — the lad who had drawn out the slip.

Problem Solved

Binghamton, N.Y. — The problem of how to keep pigeons, roosting on the courthouse clock hands, from slowing down the time has been solved. Officials are buying new electrical works which are guaranteed to keep time — even with the pigeon passengers.

Crosses U.S. In 84 Hours

Bainbridge, Mass. — Ronald Abel, 19, hitchhiked across the country, from San Diego, California, to his home here, in exactly 84 hours and ten minutes. He discounted the feat, pointing to the fact that it took him only about the same time to go to San Diego weeks before.

Large Family

Holdenville, Okla. — When Mrs. Mary Florence O'Donnel died recently at the age of 83, she left a family of 155 direct descendants — 13 of her 17 children survived, together with 67 grandchildren, 71 great-grandchildren and four great-great-grandchildren.

History Repeats

New York — History has repeated itself for the Carman family. Warner Carman, 21, was inducted into the Army just as a cease-fire was ordered in Korea after the signing of a truce. His father was inducted into the Army on November 11, 1918 — Armistice Day of World War I.

Doctor, 92 Years Delivers Own Child

Clinton, Iowa. — Dr. John D. Hullinger, 92-year-old physician, delivered an 11-pound baby boy recently born to his 32-year-old wife at the family home here. It was their first child.

Coffins Stolen

Washington. — Washington police are working on a theft case, in which the loot was about 80 coffins, which were stolen by casket company employees and sold to undertakers. Four men have been arrested.

Finally A Hero

Uniontown, Pa. — After a delay of more than 50 years, Hart Moore, now 80, has received the Silver Victory Medal and citation certificate from the Secretary of State for the Republic of Cuba, inscribed and written in Spanish. The award is "for honorable and faithful service in the cause of Cuba" during the Spanish-American War.

Fools Doctors

Easton, Pa. — Told by doctors that she "would never live to grow up," Mrs. Mary Frances Paul fooled them all by celebrating her 100th birthday on July 14th. Mrs. Paul admitted that she was "very frail" in childhood.

LIBERALS RETURNED TO POWER FOR FIFTH CONSECUTIVE TERM

By JAMES R. NELSON
(British United Press Staff Correspondent)

The middle-of-the-road Liberal administration of Prime Minister Louis St. Laurent was back in office for an history-making fifth term today, certain of filling out a full score of years as Canada's national government.

The administration, little changed since it took office in 1935, won another landslide victory, the second in four years. It elected another whopping powerhouse of 165 seats in a new parliament of 265 members.

The new parliament's life will extend until August, 1958, but the government is likely to go to the electorate again in another general election before then. No government likes to stay for its full term when it has such a commanding majority, subject to charges of steamroller tactics.

The Conservatives failed to make the gains even their most pessimistic supporters expected. What losses the government sustained went as victories for the CCF and Social Credit parties.

But the balance of power in the Commons will be virtually unchanged in the new house.

The new Liberal sweep at the polls rolled like a massive wave from east to west across the nation. It hit heavily in Newfoundland where the government party took all seven seats, made gains in the Maritimes, held its own across Quebec and Ontario, and then suffered a few setbacks in the west as the swell of the wave diminished.

A split in the Conservatives in St. John's, Nfld., contributed to the loss of the two Conservative seats there in the last parliament, and the only Conservative to be elected in Nova Scotia where the Liberals gained two seats was George Nowlan, Conservative Party Association presi-

dent, in Digby-Annapolis-Kings.

The Liberals gained one seat from the Conservatives in Prince Edward Island when they defeated J. Angus McLean in the dual constituency of Queens, although another Conservative, W. Chester S. McLure, will still represent the Conservative party there.

The Conservatives scored their first real gain in New Brunswick, where they defeated Dan Riley, sitting Liberal member for Saint John-Albert.

Liberal membership in Quebec was unchanged, but the Conservatives picked up one extra seat, increasing their membership to four. Five independents were elected in the place of four from the province in the last parliament.

There were several switches in party loyalties in Ontario, but the net result was that the Liberals lost only one seat and still had 52 of the province's 85 — in the province which still hasn't been able to get over its appellation, "Tory Ontario." The Conservatives gained six on the basis of the larger number of ridings carved out of the province in the 1952 distribution.

In all the central and eastern areas of Canada, only two CCF-ers were elected. They were the same two who sat in the 21st parliament — Claire Gillis (CCF-Cape Breton South), and J. W. Noseworthy, (CCF-York South). The Social Credit made no dent in the east, and the Communists failed to win a seat in any of the 100 constituencies they contested.

SOCIAL CREDIT GAINS TWO ALBERTA SEATS FROM LIBERALS

EDMONTON (BUP)—The voters of Alberta have sent much the same slate of members back to Ottawa to represent them in the new House of Commons.

Although the Liberal party

Robert Fair Wins Election In Camrose-Battle River

CAMROSE (BUP)—Social Creditor Robert Fair was re-elected Monday in the amalgamated riding of Camrose-Battle River.

Fair, formerly a member for Battle River, won the SC nomination for the new riding when it was combined with Camrose in the 1951 redistribution.

His principal opposition came from Liberal standard-bearer F. C. Saville, who ran a strong second to Fair.

Counting in the riding ended for the night at midnight, and with 155 out of 237 polls heard from, showed these results:

Fair (SC) 8189.
Saville (Lib) 3769.
Arnston (CCF) 1932.
McLeary (PC) 1509.
Taylor (LPP) 271.

Fair, a native of Ireland, moved to Canada when he was but a child. He entered politics in the 1930's, and was elected to the House of Commons for Battle River in 1935. He is a retired farmer.

NEW YORK—An official of the Margaret Sanger Research Bureau recently stated that more than 20,000 children a year are born in the United States as a result of artificial insemination.

stormed the country for another term of office with a hefty majority, they have one less member from Alberta to sit on the government side of the house.

With all 17 ridings reported, Social Credit won 11 seats, the Liberals four, and the Progressive Conservatives two. In the last house, the Social Credit had 10 members, the Liberals five, and the P-C's two.

The Liberals lost two of their members from the last parliament but gained one when they won the new riding of Edmonton-Strathcona. Social Credit held all its seats, but had one member eliminated through amalgamation of the Camrose and Battle River ridings.

National Social Credit Leader Solon Low was re-elected in Peace River, and Mines Minister George Prudham in Edmonton-West. The Liberals who went down to defeat were Jack Welbourn in Jasper-Edson, and Fred MacDonald in Edmonton East.

A recount will be held in the Edmonton-Strathcona riding, where Liberal Dick Hanna won the new seat by defeating Social Creditor Orvis Kennedy by only 16 votes.

Give us your head to run our business . . . in return — GOOD GROOMING.

Norm's Barber Shop

OTTAWA-BOUND, following a successful election campaign that returned the Liberals to power with sweeping majorities all across Canada, is the Prime Minister with Mrs. St. Laurent. They are wearing the smiles of victory as they wave to an enthusiastic crowd from the back of the train returning them to the nation's capital.

KOREAN WAR TOOK LIVES OF NEARLY 400 CANADIAN SERVICEMEN

OTTAWA—The Korean war has cost the Canadian Army in the Far East a total of 383 fatal casualties from all causes since first troops of the 25th Canadian Infantry Brigade Group landed in Japan and Korea late in 1950. In addition, Army Headquarters announced today, one soldier is missing but presumed to be dead and a further 27 are listed only as missing. Their fate is still undetermined.

Of the 383 fatal casualties, 293 were directly attributable to enemy action and the remaining 90 to training accidents, vehicle accidents, natural causes, drownings, burns and infections including haemorrhagic fever, and other causes. Seventy-nine of the 90 occurred in Korea and 11 in Japan.

The Army also listed today a total of 1,113 officers and men wounded in action, 98 injured in action, and 18 prisoners of war. Two former prisoners of war were exchanged and repatriated earlier this year.

During the period of Canadian

participation in the Korean war a total of 338 Commonwealth decorations and medals and six foreign decorations were awarded to officers and men of the three Canadian Services, the majority going to the Army. These included one Companion of the Most Honourable Order of the Bath, three Commanders of the Most Excellent Order of the British Empire, 13 Officers of the Most Excellent Order of the British Empire, six Distinguished Service Orders, one Bar to the

DSO, 35 Members of the Most Excellent Order of the British Empire, one Royal Red Cross, 24 Military Crosses, seven Distinguished Conduct Medals, one Bar to the DCM, one George Medal, 48 Military Medals, 14 British Empire Medals, 14 British Empire Medals and 183 Mentions-in-Despatches.

Foreign awards included two of the United States Legion of Merit (Degree of Officer) and four of the United States Air Medal.

Isoniazid, the year-old drug in the treatment of tuberculosis, is now on the market in large quantities and at low cost.

Crossfield Lockers and Cold Storage

Wish to announce that we have installed a new checking-out system for your convenience at all times.

Since extensive arrangements have been made we are now able and in first-class shape to handle any processing. We can supply you with all types of Frozen Foods.

Grain Elevator Space Shortage Looming In Alberta This Year

the cash register, muttered, "This isn't enough," and disgustingly walked out.

Most of this year's harvest in Alberta may have to be kept on the farm. The heavy crop last year is still keeping grain elevators full.

Advising farmers to start preparing storage facilities now, Leonard D. Nesbitt, superintendent of publicity for Alberta Wheat Pool, said Tuesday: "I think it is a good thing right now for farmers to realize that country elevator space is going to be very limited this fall."

"The only alternative is to store grain on the farm."

"There is a total capacity in all country elevators in Alberta of 100,000,000 bushels. Latest report of the Board of Grain Commissioners was that there is already over 70,000,000 bushels in the country elevators."

"This position is not going to be eased by harvest time and there

Denver, Col. — A man armed with a pistol entered a local florist's shop, took a look inside seems to be no alternative to storage on the farm."

Mr. Nesbitt pointed out that during at record levels, the abundance exports of grain still rampant crops of the last three years have caused the huge surplus.

Edmonton Mops Up On Civic Holiday

EDMONTON (BUP) — Pleasant weather favored the annual civic holiday Monday, but for many it was just a day to finish mopping-up from Friday's rain storm.

Residents whose basements were flooded took advantage of the weather to move furniture outside for drying. Civic crews nearly completed pumping out basements.

Shorter Work Week For Hotel Staff

Newspapers from the Pacific Coast report that 500 employees of the Hotel Vancouver have won a five-day, 40-hour week as the result of a wage contract settlement. Negotiations between the Canadian Brotherhood of Railway Employees (CBRE) and the Canadian National and Canadian Pacific, who operate the hotel jointly, have been going on in Montreal since late June. Compulsory check-off of union dues for all employees covered by the CBRE agreement and adjustment of wages in certain job classifications were also granted.

The Vancouver Sun describes the shorter week as a "major gain" and recalls that the Hotel Vancouver employees "went to within a few hours of a strike deadline in their fight for a five-day week" last year.

The settlement is expected to

Humor From The Montreal CNRA Bulletin

A celebrated lawyer once said that the three most troublesome clients he ever had were a young lady who wanted to be married, a married woman who wanted a divorce, and an old maid who didn't know what she wanted.

The prim old lady was given her first glass of beer. After sipping for a minute, she looked up with a puzzled air.

"How odd!" she murmured, "this tastes just like the medicine my husband has been taking for the past 30 years."

A young man was asked what his father did.

He replied: "He cleans out the bank."

"Janitor or president?" asked

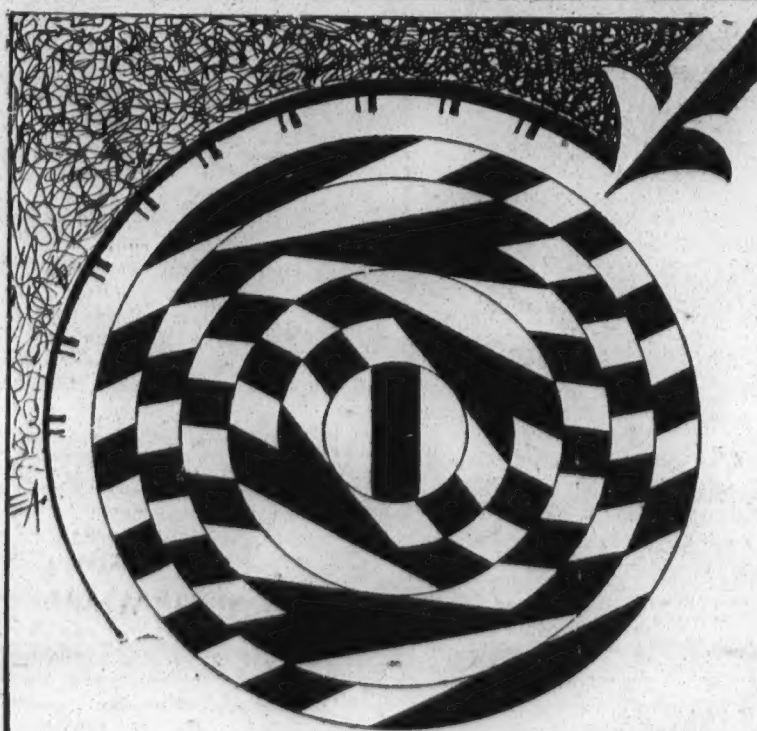

set the pattern for negotiations that begin almost immediately for 4,000 CBRE members in 14 other railway hotels. The Victoria Times reports that Empress Hotel employees (CPR) are hopeful of settling their 1953 contract on the basis of the Vancouver decision.

the questioner.

A little girl four years old was alone in the nursery with the door closed and fastened when her little brother arrived and expressed a desire to come in. The following was the dialogue:

"I want to tum in, Sissy."

"But you can't tum in, Tom."

"But I wants to."

"Well, I'm in my nightie gown an' nurse says little boys mustn't see little girls in their nightie gowns."

There was a period of silence during which the astonished little boy reflected on the mystery. It was ended by Sissy's calling out

"You tan tum in now, Tom—I tooked it off."

The menu is what the chef says it is—the meal is what you get.

Communists in Japan are eager to talk about former Jap islands now held by the U.S., though USSR possession of the Kuriles—some only ten miles off the Japanese coast—is not mentioned.

need
a
deep well
pump?

you'll be glad you installed a . . .

FAIRBANKS-MORSE SUBMERSIBLE!

HERE'S WHY . . .

It is economical — in installation — uses only one length of pipe inside casing . . . in operation — because it uses smaller motor, needs less power to operate . . . in maintenance — no rods or shafts to replace; no valves to repair; no lubrication trouble because both pump and motor are water cooled and water lubricated!

Has many advantages — never needs priming — 100% quiet; owner can install or remove with simple shop tools; service pipes may be cut in below frost line; tank and electric controls may be set over well or away from it.

Performance proved in thousands of installations.

Quality guaranteed by FAIRBANKS-MORSE!
